

Nature of Nuri Curriculum

The Nuri Curriculum is the common national-level educational curriculum for preschoolers aged between three and five, which seeks:

- Commonness at the national level and diversity at the regional, institutional and individual levels at the same time.
- All-round development and happiness of children.
- Child-oriented and play-based education.
- To expand children's autonomy and creativity.
- Collaborative implementation altogether by children, teachers, directors, parents and local community.

General Introduction

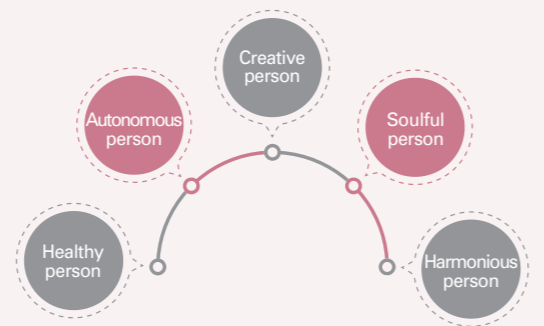

- I. Foundations of Nuri Curriculum Construction
- II. Operations of Nuri Curriculum

I. Foundations of Nuri Curriculum Construction

01 The Vision of an Educated Person

The Nuri Curriculum defines the vision of an educated person as follows:

02 Goal & Objectives

The goal of Nuri Curriculum is to help children achieve balanced development between mind and body through play and establish foundations for desirable personalities and qualities of democratic citizens.

Objectives to achieve the goal are to help children:

- Understand the importance of one's own self and develop healthy and safe daily habits.
- Develop basic abilities to perform one's own tasks.
- Develop imagination and creativity with curiosity and inquiring mind.
- Find beauty in everyday life and develop cultural sensitivity.
- Develop attitudes to respect, care for, and communicate with other people and nature.

03 Focus of Construction

The Nuri Curriculum focuses on:

- Being applicable to all three-to five-year old children in the nation.
- Reflecting the knowledge, skills, attitudes, and values to achieve the vision of an educated person.
- Five content areas of physical activities & health, communication, social relationships, artistic experiences and nature exploration.
- Experiences that children aged three to five are to have.
- Connections with the standard childcare curriculum for infants (aged zero to two) and the primary school curriculum.

II. Operations of Nuri Curriculum

01 Organization & Management

The following regulates the organization and management of Nuri Curriculum:

- Run for four to five hours a day.
- Extend operating hours according to daily schedules.
- Establish appropriate plans for each institution based on the Nuri Curriculum.
- Ensure sufficient time for play, including outdoor activities, in a daily schedule.
- Run in a manner without any discriminations against child's gender, physical characteristics, disabilities, religions, family and cultural backgrounds, etc.
- Adjust according to the extent of children's development and disabilities.
- Operate based on the cooperation and participation of families and local community.
- Provide teachers with opportunities for professional development to improve the quality of Nuri Curriculum operation.

02 Teaching & Learning

Teachers support children as indicated in the following:

- Ensure that children freely participate in and enjoy play according to their own interest.
- Let children to learn through play.
- Organize indoor and outdoor environment for children to experience diverse plays and activities.
- Support proactive interactions between children, children and teachers, and children and the environment.
- Implement an integrated curriculum in which children's experiences are connected with five content areas.
- Allow children to have time for relaxation and activities according to their own needs.
- Enable children to learn in manners appropriate for their own characteristics, such as their ages, development, disabilities, backgrounds, etc.

03 Evaluation

Evaluation shall be implemented with the focus on the followings;

- Plan and implement evaluation in order to assess and improve the quality of Nuri Curriculum.
- Evaluate children's characteristics and degree of change as well as the operation of Nuri Curriculum.
- Employ methods that accord with evaluation purposes.
- May utilize the evaluation results for a better understanding of children and operational improvement of Nuri curriculum.

Objectives & Contents by Content Area

- I. Physical Activities & Health
- II. Communication
- III. Social Relationships
- IV. Artistic Experiences
- V. Nature Exploration

I. Physical Activities & Health

1 Objectives

Enjoy indoor and outdoor physical activities and lead a healthy and safe life.

- 1) Participate in physical activities with joy.
- 2) Develop healthy daily habits.
- 3) Develop safe daily habits.

2 Contents

Category	Descriptions
Enjoying physical activities	Recognize and move one's own body.
